

## The Alienware RGB Mechanical Gaming Keyboard | AW410K

Game with Greater Touch

For over two decades, Alienware has been dedicated to creating iconic and meticulously designed products to provide the ultimate gaming experience. Driven by our passion and guided by our fans, Alienware is now excited to announce the arrival of the definitive immersive gaming keyboard – the Alienware RGB Mechanical Gaming Keyboard.

### Overview

The Alienware RGB Mechanical Gaming Keyboard is an all-round gaming keyboard that blends function and immersiveness while still offering industry leading components in an iconic design. Incorporating Cherry® MX keys in a floating key architecture with anti-ghosting and on-board memory, this keyboard is designed for responsive, immersive gaming in a compact form factor.

Gamers can now enjoy greater precision thanks to industry leading Cherry® MX Brown keys which combine tactile feedback and quiet-click keys with a low actuation force. They can also fully customize their setup and get the most immersive gaming experience with the AlienFX per-key RGB lighting, choosing from approximately 16.8m colors for a fully bespoke gaming experience.

Designed for personalization, this gaming keyboard features fully programmable keys for macros and key assignments, while dedicated audio controls allow for quick and accurate adjustments to be made.

The Alienware RGB Mechanical Gaming Keyboard is also ergonomically designed with 3 height adjustment settings for greater comfort.

### The Alienware Difference

- The slick keyboard fitted with industry-leading Cherry® MX Brown switches combines tactile feedback, quiet click keys & comfort for fast & precise actuation, which makes this a popular keyboard for both gaming & typing.
- Get the most immersive gaming experience with customizable per-key AlienFX RGB lighting offering approximately 16.8 million colors.
- Durable switches with up to 100 million keystrokes lifespan\*
- Fully programmable keys with on-board memory let you customize & set your macros and keys to your preference
- Ergonomically designed with 3 height adjustment settings to let you type/game comfortably
- Floating keys with the switches mounted directly on the metal top plate make it easy to clean.
- 100% anti-ghosting with N-Key Rollover (NKRO) keeps the keyboard from freezing up during intense gaming sessions.
- Integrated USB passthrough lets you plug in your gear (mouse, headset or to charge your phone) easily & conveniently without having to go through your PC
- Dedicated media control keys make it easy to adjust your audio with accuracy
